# SOUND SHORE FUND

---

3 CANAL PLAZA, PORTLAND, ME 04101 1-800-551-1980

---

June 30, 2016

Dear Investor:

The Sound Shore Fund Investor Class (ticker SSHFX) ended June 30, 2016 with a net asset value of \$41.99 per share, after an income distribution of \$0.249756 on June 16<sup>th</sup>. The second quarter total return was 1.69% versus the Standard & Poor's 500 Index ("S&P 500") and Dow Jones Industrial Average ("Dow Jones"), which returned 2.46% and 2.07%, respectively. Year to date, the Fund has gained 2.28% versus 3.84% for the S&P 500 and 4.31% for the Dow Jones.

Equity markets finished higher in the second quarter of 2016, though the UK "Brexit" vote prompted a decline in late June. The referendum's outcome, which caught many investors off guard, rekindled global growth concerns and drove interest rates on sovereign bonds to multi-year lows, including those with yields already below zero (NIRPs<sup>1</sup>). Against that backdrop, the defensive "bond proxy" stocks in telecommunications and utilities continued to be among the markets' best performers despite their above normal valuations. In fact, the S&P Utility Index's 19 times price-earnings ("P/E") multiple is its highest in over 15 years, and also reflects the sector's current fad-like status. Now in our 38th year, Sound Shore Management has invested through all varieties of markets. Though our performance lagged this quarter, our experience has been that adhering to our disciplined value strategy, including resisting fads, remains the best route to competitive long-term returns for our investors.

As a reminder, Sound Shore's investment process starts with an opportunity set of the what we deem to be the least expensive stocks based upon price-earnings multiples. From there, we conduct bottom up research to identify companies where internally driven earnings and cash flow improvement will drive investment results. Within that framework, Capital One and Invesco declined in June's selloff despite reporting solid fundamentals during the period: For example, asset manager Invesco disclosed better than expected mutual fund flows while card issuer Capital One posted loan growth above consensus. In addition, both companies boast 2016 shareholder yields (dividends plus share retirements) of over 8%. Given these companies' financial progress, strong balance sheets, and attractive valuations at ten times earnings or less, we used the volatility to add to our positions.

Contributing to performance was semiconductor equipment provider Applied Materials as it bucked the underperformance trend in the technology sector. We invested in the company several years ago when the stock was priced below normal at 12 times forward earnings. Our investment thesis included management building value through market share gains and operating discipline. Over this period, Applied's earnings per share has outpaced its peers thanks to differentiated 3D NAND and 10 nanometer technologies for its semiconductor foundry customers, and the stock has outperformed. Even so, the stock's current valuation remains very reasonable at 13 times forward earnings with an 8% free cash yield, with market leading display technologies now

---

<sup>1</sup> Negative Interest Rate Policy

---

---

driving additional growth.

As well, drug maker Pfizer was a strong second quarter performer as its new product pipeline, including innovative cancer treatments, garnered valuation credit. We started our investment during the first quarter of 2016 when pharmaceutical stocks sold off broadly due to woes at a specialty competitor. In addition, Pfizer was held back by concerns about a since scuttled acquisition attempt, providing us with the opportunity to invest at 13 times P/E and a 7% shareholder yield (dividend plus share repurchase). After almost a decade of flat earnings, Pfizer's differentiated lineup and strong expense control should yield sustainably higher earnings per share, as was evident in results released during the June quarter.

We expect much of the coming market dialogue to center on the approaching US elections, party platforms, and the effects of "Brexit." While not ignoring these issues, Sound Shore will spend the bulk of its time sorting through the market's bargain bin looking for company-specific opportunities where managements are building value regardless of the environment. We note that at June 30, 2016, Sound Shore's portfolio had a forward price-earnings multiple of 14 times consensus, a meaningful discount to the S&P 500 Index at 17 times, despite our holdings' strong balance sheets and free cash flow.

Thank you for your investment alongside ours in Sound Shore.

Sincerely,

SOUND SHORE FUND

**Harry Burn, III**  
**John P. DeGulis**  
**T. Gibbs Kane, Jr.**  
*Co-Portfolio Managers*

Important Information

*Fund returns assume the reinvestment of all dividend and capital gain distributions. The Standard & Poor's 500 Index is an unmanaged index representing the average performance of 500 widely held, publicly traded, large capitalization stocks. The Dow Jones Industrial Average consists of 30 stocks that are considered to be major factors in their industries and that are widely held by individuals and institutional investors. The S&P 500 Utilities Index comprises those companies included in the S&P 500 that are classified as members of the GICS utilities sector. It is not possible to invest directly in an Index or Average.*

***Short-term performance, in particular, is not a good indication of the Fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, Fund performance may be subject to substantial short-term changes.***

---

---

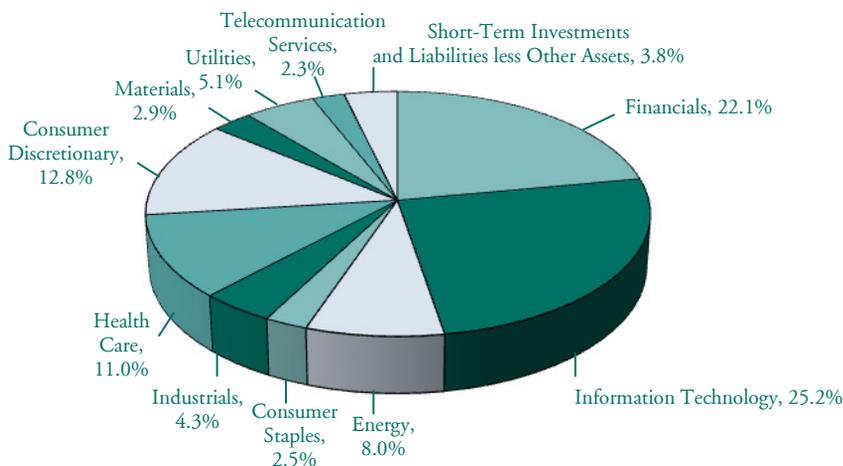

*The price-to-earnings (P/E) of an index is the total price of the index divided by its total earnings. Free cash flow is the amount of cash left over after the company has paid all its expenses and what was spent for reinvesting into the company (capital expenditures). The free cash flow yield is an overall return evaluation ratio of a stock, which standardizes the free cash flow per share a company is expected to earn against its market price per share. Generally, the lower the ratio, the less attractive the investment is and vice versa. Yield discussed within this letter is not reflective of Fund yield.*

*An investment in the Fund is subject to risk, including the possible loss of principal amount invested. Mid Cap Risk: Securities of medium sized companies may be more volatile and more difficult to liquidate during market downturns than securities of large, more widely traded companies. Foreign Securities Risk: The Fund may invest in foreign securities primarily in the form of American Depositary Receipts. Investing in the securities of foreign issuers also involves certain special risks, which are not typically associated with investing in U.S. dollar-denominated securities or quoted securities of U.S. issuers including increased risks of adverse issuer, political, regulatory, market or economic developments. Investments in foreign securities also may be affected favorably or unfavorably by changes in currency rates and in exchange control regulations.*

*The views in this letter were those of the Fund managers as of 6/30/16 and may not necessarily reflect their views on the date this letter is first published or anytime thereafter. These views (i) are intended to assist shareholders in understanding the Fund's present investment methodology and (ii) do not constitute investment advice. This letter may contain discussions about certain investments both held and not held in the portfolio.*

---

*SOUND SHORE FUND, INC.*  
*NOTES TO FINANCIAL STATEMENTS*  
*JUNE 30, 2016 (Unaudited)*

---

***1. Organization***

Sound Shore Fund, Inc. (the “Fund”) was incorporated under the laws of the State of Maryland on February 19, 1985 and is registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the “Act”). The investment objective of the Fund is growth of capital. The Fund qualifies as an investment company as defined in the Financial Accounting Standards Codification 946 — Financial Services — Investment Companies.

The total number of shares of common stock which the Fund is authorized to issue is 200,000,000, par value \$0.001 per share of which 100,000,000 shares are designated to the Investor Class and 100,000,000 shares are designated to the Institutional Class. The Board of Directors (the “Board”) may, without shareholder approval, classify or reclassify any unissued shares into other classes or series of shares.

Each share of the Fund has equal dividend, distribution, liquidation and voting rights (except as to matters relating exclusively to one class of shares), and fractional shares have those rights proportionately.

***2. Significant Accounting Policies***

These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities, if any, at the date of the financial statements, and the reported amounts of increase and decrease in net assets from operations during the fiscal period. Actual results could differ from those estimates.

The following represents the significant accounting policies of the Fund:

***a. Security Valuation***

Exchange-traded securities including those traded on the National Association of Securities Dealers’ Automated Quotation system (“NASDAQ”), are valued at the last quoted sale price as provided by independent pricing services as of the close of trading on the system or exchange on which they are primarily traded, on each Fund business day. In the absence of a sale, such securities are valued at the mean of the last bid and asked prices. Non-exchange-traded securities for which over-the-counter market quotations are readily available are generally valued at the mean between the current bid and asked prices provided by independent pricing services. Investments in other open-end regulated investment companies are valued at their publicly traded net asset value (“NAV”).

The Fund values securities at fair value pursuant to procedures adopted by the Board if market quotations are not readily available (including a short and temporary lapse in the provision of a price by the regular pricing source) or, if in the judgment of the Adviser, as defined in Note 3, the prices or values available do not represent the fair value of the instrument. Factors which may cause the Adviser to make such a judgment include, but are not limited to, the following: (i) only a bid price or an asked price is available, (ii) the spread between the bid price and the asked price is substantial, (iii) the frequency of sales, (iv) the thinness of the market, (v) the size of reported trades, and (vi) actions of the securities markets, such as the suspension or limitation of trading. Fair valuation is based on subjective factors and, as a result, the fair value price of an asset may differ from the asset’s market price and may not be the price at which the asset may be sold. Fair valuation could result in a NAV different from one determined by using market quotations.

**SOUND SHORE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2016 (Unaudited)**

Valuation inputs used to determine the value of the Fund's investments are summarized in the three broad levels listed below:

- Level 1 - quoted prices in active markets for identical assets
- Level 2 - other significant observable inputs (including quoted prices of similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Pursuant to the valuation procedures noted previously, equity securities (including exchange-traded securities and other open-end regulated investment companies) are generally categorized as Level 1 securities in the fair value hierarchy. Investments for which there are no quotations, or for which quotations do not appear reliable, are valued at fair value as determined in good faith by the Pricing Committee under the direction of the Board. These valuations are typically categorized as Level 2 or Level 3 in the fair value hierarchy.

The following table summarizes the Fund's investments categorized in the fair value hierarchy as of June 30, 2016:

<u>Security Type</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total Investments in Securities</u>
Common Stocks	\$ 1,779,797,366	\$ -	\$ -	\$ 1,779,797,366
Short-Term Investments	82,296,590	-	-	82,296,590
Total Investments	<u>\$ 1,862,093,956</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,862,093,956</u>

At June 30, 2016, all equity securities and open-end regulated investment companies were included in Level 1 in the table above. Please refer to the Schedule of Investments to view equity securities categorized by sector/industry type.

The Fund's policy is to disclose transfers between Levels based on valuations at the end of the reporting period. There were no transfers between Levels as of June 30, 2016, based on the valuation input Levels on December 31, 2015.

***b. Security Transactions***

Security transactions are recorded on a trade date basis. Realized gain and loss on investments sold are recorded on the basis of identified cost. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Foreign dividend income is recorded on the ex-dividend date or as soon as practicable after the Fund determines the existence of a dividend declaration after exercising reasonable due diligence. Income and capital gains on some foreign securities may be subject to foreign withholding tax, which is accrued as applicable. Investment income, realized and unrealized gains and losses and certain Fund-level expenses are allocated to each class based on relative average daily net assets. Certain expenses are incurred at the class level and charged directly to that particular class. Class level expenses are denoted as such on the Fund's Statement of Operations.

*c. Dividends to Shareholders*

Dividends are declared separately for each class. No class has preferential dividend rights; differences in per-share dividend rates are generally due to class-specific fee waivers and expenses. Dividends and distributions payable to shareholders are recorded by the Fund on the ex-dividend date. Dividends from net investment income, if any, are declared and paid semiannually. Capital gains, if any, are distributed to shareholders at least annually. The Fund determines its net investment income and capital gains distributions in accordance with income tax regulations, which may differ from GAAP. These differences are due primarily to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterizations of distributions made by the Fund. To the extent distributions exceed net investment income and net realized capital gains for tax purposes, they are reported as a return of capital.

*d. Federal Taxes*

The Fund intends to qualify each year as a regulated investment company and to distribute substantially all of its taxable income. In addition, by distributing in each calendar year substantially all of its net investment income, capital gain and certain other amounts, if any, the Fund will not be subject to federal taxation. Therefore, no federal income or excise tax provision is required. For all open tax years and all major taxing jurisdictions, management of the Fund has concluded that there are no significant uncertain tax positions that would require the Fund to record a tax liability or would otherwise require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally, the last three tax yearsends 2013 – 2015, and the interim tax period since then).

*3. Fees and Expenses*

*Investment Adviser*

The Fund's investment adviser is Sound Shore Management, Inc. (the "Adviser"). Pursuant to an investment advisory agreement, the Adviser receives an advisory fee, accrued daily and paid monthly at an annual rate of 0.75% of the Fund's average daily net assets. Pursuant to an expense limitation agreement between the Adviser and the Fund, the Adviser has agreed to reimburse all of the ordinary expenses of the Institutional Class, excluding its advisory fees, interest, taxes, securities lending costs, brokerage commissions and acquired fund fees and expenses, extraordinary expenses and all litigation costs until at least May 1, 2017. This reimbursement is shown on the Statement of Operations as a reduction of expenses.

*Other Services*

Atlantic Fund Administration, LLC (d/b/a Atlantic Fund Services) ("Atlantic") provides certain administration and portfolio accounting services to the Fund. MUFG Union Bank, N.A. ("Union Bank") serves as custodian to the Fund. Prior to February 8, 2016, Citi Fund Services Ohio, Inc. provided certain administration and portfolio accounting services to the Fund and prior to April 4, 2016, Citibank, N.A. served as custodian to the Fund.

Atlantic Shareholder Services, LLC provides transfer agency services to the Fund. Prior to April 4, 2016, SunGard Investor Services LLC served as the Fund's transfer agent.

The Fund also has agreements with various financial intermediaries and "mutual fund supermarkets" under which customers of these intermediaries may purchase and hold Fund shares. These intermediaries effectively provide subtransfer agent services that the Fund transfer agent would have otherwise had to provide. In recognition of this, the transfer agent, the Fund and the

---

---

*NOTES TO FINANCIAL STATEMENTS (Continued)*  
*JUNE 30, 2016 (Unaudited)*

---

Fund's Adviser have entered into an agreement whereby the transfer agent agrees to pay financial intermediaries a portion of the amount denoted on the Statement of Operations as "Transfer agent fees and expenses — Investor Class Shares" that it receives from the Fund for its services as transfer agent for the Investor Class and the Adviser agrees to pay the excess, if any, charged by a financial intermediary for that class.

Foreside Fund Services, LLC is the Fund's distributor (the "Distributor"). The Distributor is not affiliated with the Adviser, Atlantic, Union Bank, or its affiliated companies. The Distributor receives no compensation from the Fund for its distribution services.

Pursuant to a Compliance Services Agreement with the Fund, Foreside Fund Officer Services, LLC ("FFOS"), an affiliate of the Distributor, provides a Chief Compliance Officer and Anti-Money Laundering Officer to the Fund as well as some additional compliance support functions. Under a Treasurer Services Agreement with the Fund, Foreside Management Services, LLC ("FMS"), an affiliate of the Distributor, provides a Treasurer to the Fund. Neither the Distributor, FFOS, FMS, nor their employees that serve as officers of the Fund, have any role in determining the investment policies of or securities to be purchased or sold by the Fund.

The Fund pays each director who is not an "interested person" of the Fund, as defined in Section 2(a)(19) of the Act ("Independent Director"), quarterly fees of \$2,500, plus \$10,000 per quarterly in-person meeting, \$4,000 per quarterly meeting attended telephonically, and \$2,000 per special meeting attended in person or telephonically. In addition, the Chairman of the Audit Committee receives a quarterly fee of \$1,250.

Certain Officers and Directors of the Fund are officers, directors, or employees of the aforementioned companies.

#### ***4. Purchases and Sales of Securities***

The cost of securities purchased and proceeds from sales of securities (excluding short-term investments and in kind transactions) for the period ending June 30, 2016 aggregated \$392,355,510 and \$518,865,300, respectively.

#### ***5. Federal Income Tax***

Distributions during the fiscal years ended December 31, 2015 and December 31, 2014 were characterized for tax purposes as follows:

	<u>2015</u>	<u>2014</u>
Ordinary Income	\$ 19,103,620	\$ 56,535,425
Long-Term Capital Gains	199,633,675	211,749,490
Total Taxable Distributions	218,737,295	268,284,915
Return of Capital	-	1,255,180
Total Distributions Paid	<u>\$ 218,737,295</u>	<u>\$ 269,540,095</u>

---

**SOUND SHORE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2016 (Unaudited)**

Components of capital on a federal income tax basis at December 31, 2015, were as follows:

Par Value + Paid-in Capital	\$	1,588,936,887
Undistributed Ordinary Income		134,967
Capital Loss Carryforwards		-
Net Unrealized Appreciation		324,315,489
	\$	<u>1,913,387,343</u>

**6. Capital Stock**

Transactions in capital stock for the periods ended June 30, 2016 and December 31, 2015 were as follows:

	<b>For the Six Months Ended June 30, 2016 (Unaudited)</b>			
	<b>Investor Class</b>		<b>Institutional Class</b>	
	<b>Shares</b>	<b>Amount</b>	<b>Shares</b>	<b>Amount</b>
Sale of shares	1,315,621	\$ 52,705,506	1,024,293	\$ 41,552,270
Reinvestment of dividends	189,191	7,893,026	66,854	2,795,156
Redemption of shares	<u>(3,856,611)</u>	<u>(155,941,505)</u>	<u>(1,015,631)</u>	<u>(41,441,404)</u>
Net increase (decrease) from capital transactions	<u>(2,351,799)</u>	<u>\$ (95,342,973)</u>	<u>75,516</u>	<u>\$ 2,906,022</u>

	<b>For the Year Ended December 31, 2015</b>			
	<b>Investor Class</b>		<b>Institutional Class</b>	
	<b>Shares</b>	<b>Amount</b>	<b>Shares</b>	<b>Amount</b>
Sale of shares	3,158,031	\$ 152,004,279	5,568,282	\$ 266,010,400
Reinvestment of dividends	3,791,880	160,259,511	1,178,512	50,117,192
Redemption of shares	<u>(8,143,104)</u>	<u>(388,239,824)</u>	<u>(7,140,070)</u>	<u>(332,692,435)</u>
Net decrease from capital transactions	<u>(1,193,193)</u>	<u>\$ (75,976,034)</u>	<u>(393,276)</u>	<u>\$ (16,564,843)</u>

**7. Principal Risks**

As of June 30, 2016, the Fund invested a significant portion of its assets in securities in the Information Technology sector. Changes in economic conditions affecting such sector would have a greater impact on the Fund and could affect the value, income and/or liquidity of positions in such securities.

**8. Change in Independent Registered Public Accounting Firm**

The Board, with the approval and recommendation of the Audit Committee selected BBD, LLP (“BBD”) to replace Deloitte & Touche LLP (“D&T”), as the Fund’s independent registered public accounting firm for the Fund’s fiscal year ending December 31, 2016. Throughout D&T’s tenure, including the Fund’s two most recent fiscal periods, the Fund had no disagreements with D&T on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedures, and there were no reportable events of the kind described in Item 304(a)(1)(v) of Regulation S-K under the Securities Exchange Act of 1934. With respect to the Fund, D&T’s audit opinions, including the past two fiscal periods,

---

*SOUND SHORE FUND, INC.*  
*NOTES TO FINANCIAL STATEMENTS (Concluded)*  
*JUNE 30, 2016 (Unaudited)*

---

have not contained either an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles. Further, there were no disagreements between the Fund and D&T on accounting principles, financial statement disclosure or audit scope, which, if not resolved to the satisfaction of D&T would have caused D&T to make reference to the disagreement in D&T's report. During the last two fiscal years of the Fund, neither the Fund nor anyone on its behalf has consulted BBD on items concerning the application of accounting principles to a specified transaction (either completed or proposed) or the type of audit opinion that might be rendered on the Fund's financial statements, or concerning the subject of a disagreement of the kind described in Item 304(a)(1)(iv) of Regulation S-K or reportable events of the kind described in Item 304(a)(1)(v) of Regulation S-K.

*9. Subsequent Events*

Subsequent events occurring after the date of this report have been evaluated for potential impact to this report through the date the report was issued.

**JUNE 30, 2016 (Unaudited)**

---

***Shareholder Expense Example***

As a shareholder of the Fund, you incur ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The following example is based on \$1,000 invested at the beginning of the period and held for the entire period from January 1, 2016 through June 30, 2016.

***Actual Expenses*** - The Actual Return lines of the table below provide information about actual account values and actual expenses for each share class. You may use the information in these lines, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the Actual Return line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

***Hypothetical Example for Comparison Purposes*** - The Hypothetical Return lines of the table below provide information about hypothetical account values and hypothetical expenses based on each class’ actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing cost of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the Hypothetical Return lines of the table are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds.

	<b><i>Beginning Account Value January 1, 2016</i></b>	<b><i>Ending Account Value June 30, 2016</i></b>	<b><i>Expenses Paid During Period*</i></b>
Investor Class Actual Return	\$ 1,000.00	\$ 1,022.79	\$ 4.68
Investor Class Hypothetical Return	\$ 1,000.00	\$ 1,020.24	\$ 4.67
Institutional Class Actual Return	\$ 1,000.00	\$ 1,023.43	\$ 3.77
Institutional Class Hypothetical Return	\$ 1,000.00	\$ 1,021.13	\$ 3.77

\* *Expenses are equal to the Investor Class’ and Institutional Class’ annualized expense ratios of 0.93% and 0.75% respectively, multiplied by the average account value over the period, multiplied by 182/366 to reflect the most recent one-half year period.*

*Investment Advisory Agreement Approval*

In advance of the Board meeting, held on January 28, 2016, the Independent Directors met by telephone with their independent counsel to consider the Investment Advisory Agreement and the Board materials that had been provided in advance of the meeting, including a legal memorandum outlining relevant judicial precedent and the duties of the Directors under the Investment Company Act and the law of Maryland, and the fee and expense comparisons described in more detail below.

At the Board meeting, the Independent Directors and the full Board reviewed, considered and discussed the written materials provided to them. These materials included the terms of the Investment Advisory Agreement; revenue received by the Adviser from the Fund; and the costs incurred by the Adviser in connection with the services it renders to the Fund, a summary of Lipper data on the Fund's comparative performance, recent news articles commenting on the Fund's performance and a comparison of expenses, size and other relevant data including returns over the last fifteen years of twenty-seven funds that the Adviser has been tracking for that period of time. The materials also included comparative analyses of advisory and certain other fees and total expenses borne by the Fund to all mutual funds included in an independently selected universe of no-load U.S. diversified equity funds with no 12b-1 or non-12b-1 fees with assets of \$1 billion to \$3 billion and additional analysis of its fees as compared to funds in a group of small fund families (under 10 funds) within the select-fund universe. The Adviser pointed out that the expense ratio of the Investor Class was slightly higher than the Fund's Lipper peer group, and that this was attributable to the Fund being a "stand alone" fund, so that the Adviser could not realize the efficiencies that often result for fund families with more funds and an aggregate higher amount of assets under management. The Directors observed, however, that the expense ratio of the Investor Class met the median of the total expense ratio of the group of small fund families within the select-fund universe. The Directors reviewed the Adviser's personnel and their professional qualifications, the team approach to portfolio management, the operations and compliance program, the ranges of fees paid by institutional client accounts and private funds managed by the Adviser, and the additional work of the Adviser necessary to discharge the requirements of the Investment Company Act, including the oversight of the Fund's service providers and the work involved in supporting Board meetings and shareholder reporting.

The Independent Directors met in executive session with fund counsel and independent counsel to discuss the Board materials and the Adviser's presentation, including information that had been presented by the Adviser about its profitability attributable to its services to the Fund. They noted that the concepts of "economies of scale" and "fall out benefits" were not material factors in the Board's consideration of the Investment Advisory Agreement because the Fund is the Adviser's sole mutual fund, and that the combined assets of the Investor and Institutional Class, at \$2.352 billion, were not of a scale to result in excessive profits to the Adviser. The Independent Directors noted the Fund's consistent long term performance and the Adviser's continuing disciplined adherence to its investment strategy, including investing assets fully to the extent feasible. They discussed the detailed information presented by the Adviser about the Fund's portfolio and securities positions at the quarterly board meetings, and the responsiveness of management to questions from the Independent Directors. They reviewed the Fund's performance in 2015, with a total return of -5.02% for the Investor Class and -4.84% for the Institutional Class that underperformed the Morningstar Large Cap Value Category, the Morningstar Domestic and Large Cap Growth Categories. The Board observed that the Fund's three-, five-, ten-, fifteen-, and twenty-year performance records remained strong. The Independent Directors agreed that an advisory fee of 0.75% was fair, and not excessive, considering the assets in the Investor Class and the services provided by the Adviser. The Independent Directors evaluated the Institutional Class, noting that the Adviser was capping its expenses at 0.75%, to compete in the institutional market, and that the class

---

---

*SOUND SHORE FUND, INC.*  
*JUNE 30, 2016 (Unaudited)*

---

was gradually attracting new assets as an indication that it was competing in the institutional space. The Independent Directors concluded that the expense ratios for both the Investor Class and the Institutional Class were reflective of the Fund's necessary and reasonable expenses. Taking into account the materials provided by the Adviser for the meeting and throughout the year, they expressed their confidence in the Adviser and concluded that they would unanimously vote to approve the continuance of the Investment Advisory Agreement.

Thereafter, the full Board meeting resumed and discussion about the renewal of the Agreement continued. While the Directors, including the Independent Directors, did not identify any single factor as controlling, after considering all the factors, they resolved unanimously, first by the Independent Directors and then by the full Board, to approve continuance of the Investment Advisory Agreement as in the best interests of the Fund and its shareholders.

*Proxy Voting Information*

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to securities held in the Fund's portfolio is available, without charge and upon request, by calling (800) 551-1980 or by visiting the Fund's website at <http://www.soundshorefund.com>. This information is also available on the Securities and Exchange Commission's ("SEC") website at <http://www.sec.gov> under the name of the Sound Shore Fund.

The Fund's proxy voting record for the most recent 12-month period ended June 30 is available, without charge and upon request, by calling (800) 551-1980 or by visiting the Fund's website at <http://www.soundshorefund.com>. This information is available on the SEC's website at <http://www.sec.gov> under the name of the Sound Shore Fund.

*Availability of Quarterly Portfolio Schedule*

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. This information is available on the SEC's website at <http://www.sec.gov> under the name of the Sound Shore Fund. It may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.
