

SOUND SHORE FUND

3435 STELZER ROAD, COLUMBUS, OH 43219 1-800-754-8758

December 31, 2008

Dear Shareholder:

The Sound Shore Fund, Inc. (the "Fund") ended December 31, 2008 with a net asset value of \$22.76 per share following year-end per share distributions of \$0.119724 in dividends. For the Year 2008, the Fund had a total return of -35.60%, while the Standard & Poor's 500 Index (S&P 500) declined -37.00%. In the fourth quarter of 2008, the Fund dropped -24.81% versus -21.94% for the S&P 500.

We are required by the SEC to say that: Performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. The Fund's 1, 5, 10, and 15-year average annual total returns for the period ended December 31, 2008 were -35.60%, -1.05%, 2.34%, and 7.87%, respectively. As stated in the current prospectus, the Fund's annual operating gross expense ratio is .92%. For the most recent month-end performance, please visit the Fund's website at www.soundshorefund.com.

In 2008 the stock market endured its second worst year since Standard & Poor's began measurement in the 1920s. Remarkably, the US was the seventh best of thirty-six major markets as repercussions from our financial tsunami proved that the World today is indeed flat.

The Fund's 2008 results were only modestly better than the S&P 500, despite avoiding much of the serious damage in the financial sector. We did not own Ambac Corp., Bear Stearns, CIT Group, Citigroup Inc., Freddie Mac, Lehman Bros., MBIA, Inc., MGIC Corp., Wachovia, or Washington Mutual. Additionally, we sold AIG (American International Group) in January of 2008 incurring less than 3% of the stock's 97% decline for the year and owned Fannie Mae only briefly in 2008, selling it at a modest loss. However, we clearly had our share of disappointing performers. One example, global utility AES Corp., fell approximately 60% due to concerns about its emerging market presence and access to project financing. In fact, developed markets represent approximately 60% of the company's cash flow and long-term contracts account for about 85% of its revenue. Further, the company reported stable third quarter earnings and cash flow yet the stock price fell to 5 times estimated 2009 earnings.

Similarly, medical device maker Boston Scientific Corp., which was up on the year as recently as Labor Day, dropped by 40% from mid-September through the year-end, triggered by margin call selling by a co-founder and former executive chairman of the company. Away from that development, Boston continued to execute: its drug-coated stent market share remained at or above the company's target and financial results were solid. We added to our position during November with the stock trading below 6 times our cash earnings estimate for 2009.

We did have several positive performers for the year, including generic drug maker Barr Pharmaceutical, Inc. and for-profit education provider Apollo Group, Inc. We started our Barr holding in early 2007 when the stock was at the low end of historical valuations, having declined 25% from its

peak. Versus tepid consensus forecasts, our analysis suggested that Barr had strong growth potential especially from its acquisitions in Eastern Europe. During the first half of 2008, with the stock lower due to industry pricing concerns, we added to the position, and when management announced its agreement to sell to rival Teva for a 55% percent premium, Barr was our largest holding.

For the second year running, Apollo was among our best performers. We had sold Apollo in the fourth quarter of 2007, and returned to the stock in the first quarter of 2008 following its 50% drop on concerns about private student loan availability and the company's enrollment acquisition costs. At that time, it was once again valued at the bottom end of its historical price to earnings (P/E) range and less than 10 times cash flow. We concluded that since only 4% of revenues were from students receiving private lender loans, credit market dislocations were likely a minimal problem. As well, recent cost issues were being addressed. Through the year, Apollo realized better than expected enrollment growth and margins and the stock advanced more than 40% from our initial investment. We sold the position in the fourth quarter as it achieved our target valuation.

In general, consumers, businesses, and governments are undergoing significant changes in response to the most testing economic conditions in many decades. In our 30 year history of analyzing and investing in out-of-favor companies, we have tried to take advantage of what the late John Templeton called "points of maximum pessimism." We continue to look for companies that we believe can provide attractive risk reward characteristics in these uncharted waters and we are proceeding with even more focus on balance sheet strength and proven management effectiveness.

Thank you for your confidence and investment alongside us in Sound Shore.

Sincerely,

SOUND SHORE FUND

Harry Burn, III

John P. DeGulis

T. Gibbs Kane, Jr.

Co-Portfolio Managers

Fund returns assume the reinvestment of all dividend and capital gain distributions. The S&P 500 is an unmanaged index representing the average performance of 500 widely held, publicly traded, large capitalization stocks. It is not possible to invest directly in an index. Price to earnings ratio is the value of a company's stock price relative to company earnings.

This letter may contain discussions about certain investments both held and not held in the portfolio. As required by Rule 2210(d)(1)(A), we must remind you that current and future portfolio holdings are subject to risk. Percent of net assets as of 12/31/08: Ambac Corp.: 0.00%; AES Corp.: 2.31%; American International

Group: 0.00%; Apollo Group, Inc.: 0.00%; Barr Pharmaceuticals, Inc.: 0.00%; Bear Stearns: 0.00%; Boston Scientific Corp.: 3.75%; CIT Group: 0.00%; Citigroup, Inc.: 0.00%; Fannie Mae: 0.00%; Freddie Mac: 0.00%; Lehman Bros.: 0.00%; MBIA, Inc.: 0.00%; MGIC Corp.: 0.00%; Wachovia: 0.00%; and Washington Mutual: 0.00%.

The Fund may invest in medium-sized companies, which involves greater risk than investing in larger, more established companies such as increased volatility of earnings and prospects, higher failure rates, and limited markets, product lines or financial resources.

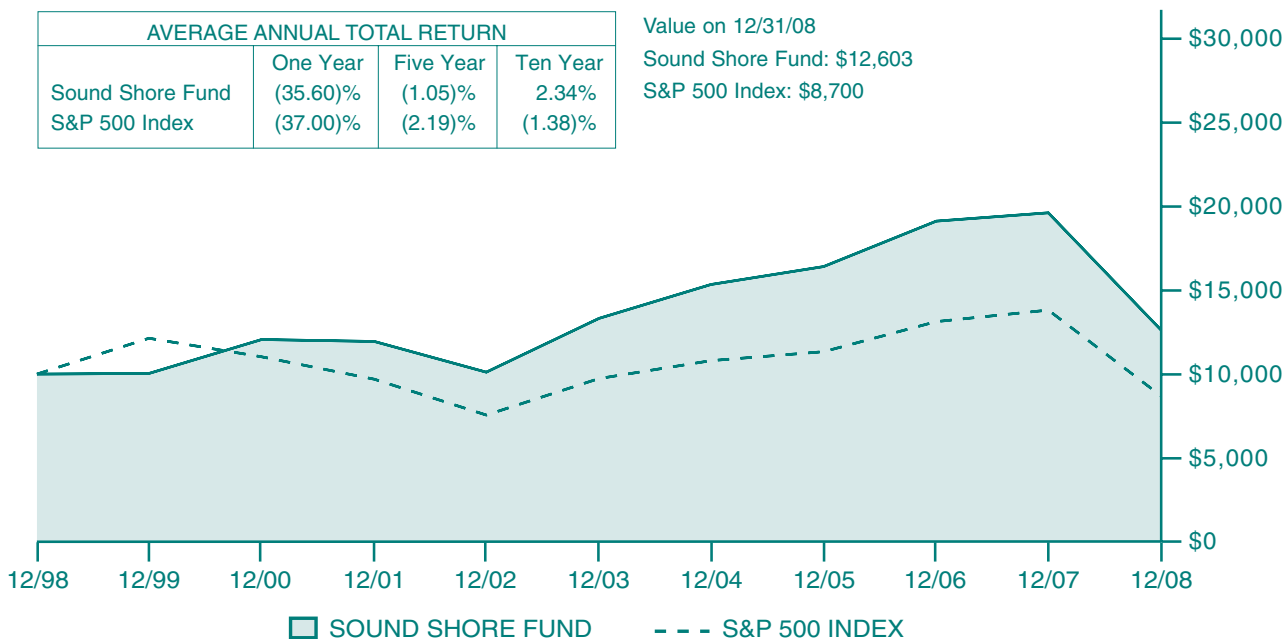

The views in this letter were those of the Fund managers as of 12/31/08 and may not necessarily reflect their views on the date this letter is first published or anytime thereafter. These views (i) are intended to assist shareholders in understanding the Fund's present investment methodology and (ii) do not constitute investment advice. This letter must be preceded or accompanied by a current Fund prospectus. Distributed by Foreside Fund Services, LLC.

The following chart reflects a ten-year comparison in the change in value of a hypothetical \$10,000 investment in the Fund, including reinvested dividends and distributions, compared with a broad-based securities market index. The Standard and Poor's 500 Index (the "S&P 500") is a market-weighted index composed of 500 large capitalization companies and reflects the reinvestment of dividends. The Fund is professionally managed, while the S&P 500 is unmanaged and is not available for investment. The S&P 500 excludes the effect of any expenses, which have been deducted from the Fund's return. The performance table and graph do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Furthermore, during the period, certain fees were waived and/or expenses reimbursed; otherwise, returns would have been lower. ***Past performance cannot predict nor guarantee future results. Investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Results of an investment made today may differ substantially from the Fund's historical performance. Current performance may be lower or higher than the performance data quoted.***

SOUND SHORE FUND, INC.
NOTES TO FINANCIAL STATEMENTS

1. Organization

Sound Shore Fund, Inc. (the “Fund”) was incorporated under the laws of the State of Maryland on February 19, 1985 and is registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the “Act”), as amended. The investment objective of the Fund is growth of capital.

2. Significant Accounting Policies

These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“generally accepted accounting principles”), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of increase and decrease in net assets from operations during the fiscal period. Actual results could differ from those estimates.

The following represent significant accounting policies of the Fund:

a) Security Valuation

Exchange traded securities (including those traded on the National Association of Securities Dealers’ Automated Quotation system) not subject to restrictions against resale are valued at the last quoted sale price, as provided by independent pricing services as of the close of trading on the market or exchange for which they are primarily traded, on each Fund business day. In the absence of a sale, such securities are valued at the mean of the last bid and asked prices. Non-exchange traded securities for which over-the-counter market quotations are readily available are generally valued at the mean between the current bid and asked prices provided by independent pricing services. Debt securities may be valued at prices supplied by a Fund’s pricing agent based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Investments in other investment companies are valued at net asset value. Money market instruments that mature in sixty days or less may be valued at amortized cost.

Securities (including restricted securities) for which market quotations are insufficient or not readily available, or in the judgment of the Fund’s investment adviser, the prices or values available do not represent the fair value of the instrument, are valued in good faith, pursuant to procedures adopted by the Fund’s Board of Directors (the “Board”). Fair valuation is based on subjective factors and as a result, the fair value price of an asset may differ from the asset’s market price and may not be the price at which the asset may be sold. Fair valuation could result in a different net asset value (“NAV”) than a NAV determined by using market quotes.

b) Security Transactions and Investment Income

Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Foreign dividend income is recorded on the ex-dividend date or as soon as practical after the Fund determines the existence of a dividend declaration after exercising reasonable due diligence. Income and capital gains on some

SOUND SHORE FUND, INC.
NOTES TO FINANCIAL STATEMENTS (Continued)

foreign securities may be subject to foreign withholding tax, which is accrued as applicable. Security transactions are recorded on a trade date basis. Realized gain and loss on investments sold are recorded on the basis of identified cost.

c) Dividends to Shareholders

Dividends from net investment income, if any, are declared and paid semi-annually. Capital gains, if any, are distributed to shareholders at least annually. The Fund determines its net investment income and capital gains distributions in accordance with income tax regulations, which may differ from generally accepted accounting principles. These differences are due primarily to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterizations of distributions made by the Fund.

d) Federal Taxes

The Fund intends to qualify each year as a regulated investment company and distribute all of its taxable income. In addition, by distributing in each calendar year substantially all of its net investment income, capital gain and certain other amounts, if any, the Fund will not be subject to a federal excise tax. Therefore, no federal income or excise tax provision is required.

In addition, Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes ("FIN 48") provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the affirmative evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether it is more-likely-than-not (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. Differences between tax positions taken in a tax return and amounts recognized in the financial statements will generally result in an increase in a liability for taxes payable (or a reduction of a tax refund receivable), including the recognition of any related interest and penalties as an operating expense. Implementation of FIN 48 included a review of tax positions taken in tax years that remain subject to examination by tax authorities in all major tax jurisdictions, including federal tax (i.e., the last 4 tax year ends as applicable). FIN 48 did not impact the Fund's net assets or results of operations for the year ended December 31, 2008.

New Accounting Pronouncements - In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("SFAS 157"). This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. SFAS 157 applies to fair value measurements already required or permitted by existing standards. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The changes to current GAAP from the application of this Statement relate to the definition of fair value, the methods used to measure fair value, and the expanded

SOUND SHORE FUND, INC.
NOTES TO FINANCIAL STATEMENTS (Continued)

disclosures about fair value measurements. Effective January 1, 2008, the Fund adopted SFAS 157. There was no impact to the Fund's net assets or results of operations upon adoption.

One key component of the implementation of SFAS 157 includes the development of a three-tier fair value hierarchy. The basis of the tiers is dependant upon the various "inputs" used to determine the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1 - quoted prices in active markets for identical assets

Level 2 - other significant inputs (including quoted prices of similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's net assets as of December 31, 2008:

<u>Valuation Inputs</u>	<u>Investments in Securities</u>
Level 1	\$1,623,687,779
Level 2	—
Level 3	—
Total Investments	<u>\$1,623,687,779</u>

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("SFAS 161"). SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. SFAS 161 requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effect on the Fund's financial position, performance and cash flows. Management intends to adopt SFAS 161 during the fiscal year ending December 31, 2009. Management is currently evaluating the application of SFAS 161, and has not at this time determined the impact, if any, resulting from the adoption on the Fund's future financial statements.

3. Investment Advisory and Other Services

Investment Adviser

The Fund's investment adviser is Sound Shore Management, Inc. (the "Adviser"). Pursuant to an investment advisory agreement, the Adviser receives an advisory fee at an annual rate of 0.75% of the Fund's average daily net assets.

Fees due to the Adviser in the amount of \$993,016 were payable at December 31, 2008.

SOUND SHORE FUND, INC.
NOTES TO FINANCIAL STATEMENTS (Continued)

Other Services

Citi Fund Services Ohio, Inc. (“Citi”) provides certain administration, portfolio accounting and transfer agency services to the Fund.

Foreside Fund Services, LLC is the Fund’s distributor (the “Distributor”). The Distributor is not affiliated with the Adviser, Citi or its affiliated companies. The Distributor receives no compensation from the Fund for its distribution services.

Under a Compliance Services Agreement with the Fund, the Distributor provided a Chief Compliance Officer, Treasurer and Anti-Money Laundering Officer to the Fund as well as some additional compliance support functions (“Compliance Services”) until January 24, 2007. Since January 25, 2007, the Compliance Services have been provided by Foreside Compliance Services, LLC (“FCS”), an affiliate of the Distributor, pursuant to a Compliance Services Agreement between FCS and the Fund. The Treasurer of the Fund is a minority owner of the Distributor. Neither the Distributor, FCS or their employees that serve as officers of the Fund, has any role in determining the investment policies or which securities are to be purchased or sold by the Fund.

Compliance Services fees due to FCS in the amount of \$12,298 were payable at December 31, 2008.

The Fund pays each director who is not an “interested person” of the Fund as defined in Section 2(a)(19) of the Act (“Independent Director”) \$5,000 per year, payable quarterly, plus \$5,000 for each Board meeting attended in person and \$2,000 for each Board meeting attended by telephone.

Director fees due in the amount of \$23,453 were payable at December 31, 2008.

Certain Officers and Directors of the Fund are officers, directors, or employees of the aforementioned companies.

4. Purchases and Sales of Securities

The cost of securities purchased and the proceeds from sales of securities (excluding short-term investments) for the year ended December 31, 2008 aggregated \$2,442,808,260 and \$2,610,655,419, respectively. Securities sold and purchased in the amount of \$480,951 and \$6,510,812, respectively, were receivable/payable at December 31, 2008.

5. Federal Income Tax and Investment Transactions

Distributions during the fiscal years ended as noted were characterized for tax purposes as follows:

	<u>December 31, 2008</u>	<u>December 31, 2007</u>
Ordinary Income	\$18,329,460	\$ 41,403,302
Long-Term Capital Gain	—	272,584,175

SOUND SHORE FUND, INC.
NOTES TO FINANCIAL STATEMENTS (Concluded)

As of December 31, 2008, the components of distributable earnings on a tax basis were as follows:

Capital and Other Losses	\$(310,321,821)
Net Unrealized Depreciation	(368,425,301)

(a) Calculated using the average shares outstanding for the period.

(b) Reflects expense ratio in the absence of expense waiver and reimbursement.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of
Sound Shore Fund, Inc.

We have audited the accompanying statement of net assets of Sound Shore Fund, Inc. (the “Fund”) as of December 31, 2008, and the related statement of operations for the year ended, the statements of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund’s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2008, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Sound Shore Fund, Inc. as of December 31, 2008, the results of its operations for the year then ended, and the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

SOUND SHORE FUND, INC.
DECEMBER 31, 2008 (Unaudited)

Shareholder Expense Example

As a shareholder of the Fund, you incur ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The following example is based on \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2008 through December 31, 2008.

Actual Expenses - The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes - The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing cost of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	<u>Beginning Account Value July 1, 2008</u>	<u>Ending Account Value December 31, 2008</u>	<u>Expenses Paid During Period*</u>
Actual Return	\$1,000.00	\$ 698.50	\$3.93
Hypothetical Return	\$1,000.00	\$1,020.51	\$4.67

* Expenses are equal to the Fund's annualized expense ratio of 0.92%, multiplied by the average account value over the period, multiplied by the number of days in most recent fiscal half-year divided by 366 to reflect the half-year period.

Federal Tax Status of Dividends Declared during the Fiscal Year

Income Dividends - For Federal income tax purposes, dividends from short-term capital gains are classified as ordinary income. All net investment income dividends were ordinary income. The Fund paid income dividends of \$18,329,460 for the tax year ended December 31, 2008, of which \$0 were short term capital gain dividends. The Fund designates 100.00% of its income dividend distributed as qualifying for the corporate dividends-received

SOUND SHORE FUND, INC.
DECEMBER 31, 2008 (Unaudited) (Continued)

deduction (DRD) and 100.00% for the qualified dividend rate (QDI) as defined in Section 1(h)(11) of the Internal Revenue Code. The Fund also designates 0.54% of its income dividends as qualified interest income (QII) and 0.00% as qualified short-term capital gain dividends exempt from U.S. tax for foreign shareholders (QSD).
